DCIT 26 - APPLICATION DEVELOPMENT AND EMERGING TECHNOLOGIES

TASK BRIEF

You are a Technology Analyst at **TechVision Consulting Inc.**, a firm that advises businesses and government agencies on technology adoption. Your manager has asked you to prepare a comprehensive report on emerging technologies based on the Module 1 lecture. This report will be used to guide client recommendations and strategic planning.

Format Requirements:

- Create a professional report with a title page (name, course, date,

instructor) • Use clear headings and subheadings

- Organize content logically
- Use tables, bullet points, and paragraphs where appropriate
- Include page numbers
- Add a references section at the end
- Use Arial font style, 16 for Title,12 for table and figure, 11 for body

content. **Content Requirements:**

- Base ALL answers on the Module 1 lecture only
- Write in your own words - DO NOT copy-paste from the lecture
- Be thorough and detailed in all explanations
- Provide specific examples from the lecture
- Show understanding of all concepts discussed
- Show AI checker result and Grammarly result.

Submission:

- Submit a typed, clean, and professionally formatted report
- Check for spelling and grammar errors
- Ensure all sections are complete

- Submit a PDF and MSWord file.

Rubric:

Criteria	Weight
